V3 CONTROL CARD SOFTWARE VERSION FOR ELECTRIC OPERATED IMSWT DOORS

Due to change of new setup, V3 Control Card is not always compatible with V4 Motor Card. This applies to version 1.10 or older.

Instructions how to check the software version follows:

Please check the two program versions of the V3 control card and the V4 motor card.
Both versions to be read in display of control card V3. An access code not required.
For checking program version of V3:
Click MENU, scroll to program version and click ENTER. Notice the version and finally click MENU for 3-4 times.
For checking program version of V4:
Click MENU, scroll to Motor Ctrl Card, click ENTER, scroll to program version and click ENTER.. Notice the version and finally click MENU for 3-4 times.

When a new V3 Control Card is needed, it is also necessary to change the V4 Motor Card.

V3 Control Card

V4 Motor Card

Accordingly, please order the part number: ***10051063 - Control Card V3 and V4 for Electric Door, Kit***

that contains both control cards with the newest setup.
